5.8 – Qualifying/Time Trials

World of Outlaw Craftsman Sprint Car Series

- A. If for any reason, a driver and car match-up in any race are separated, then both the car and driver may be considered qualified.
- B. If a car/driver switch is made, for any reason, that car/driver must start at the rear **of the next segment of the racing program** in which that car/driver has qualified for. Any driver not qualified for the A-Main that gains entry into the A-Main due to a car/driver separation will earn show-up points only for the entire event.
- C. Qualifying will consist of two consecutive timed laps unless otherwise noted. Changes to the two-lap qualifying procedure will be at the discretion of the World of Outlaws Craftsman Sprint Cars Series Officials.
- D. Qualifying will take place in the order of the pill draw. Each car and/or team will have a two-car grace period to be in line for their own qualifying opportunity. If the grace period is missed the late car will take its time trial at the end of the scheduled lineup and receive only one qualifying lap and the best a late car can qualify is the first car outside the **announced Heat race transfer number**, notwithstanding the actual qualifying time of record as posted. Once a car is pushed for qualifying, even if it doesn't start, that is considered an attempt to qualify. If the car leaves the track and goes to the pit area or returns to the qualifying push lane it will be considered late and will only receive one qualifying lap as outlined above. If a car is found to be under the minimum weight after qualifying, see 5.4.I.

- E. The cars and/or teams that are late must be in line before the last scheduled car pushes off. Qualifying will be closed once all cars that are in line have been pushed off to begin their time trial.
- F. In the event of two or more cars posting the same qualifying time, the tie breaker will be the fastest other lap time of the two consecutive recorded laps. If this does not break the tie, the tie will be broken by the qualifying order draw. In the event that one (1) lap qualifying is utilized, the tiebreaker will be the qualifying order draw.
- G. In the event that a qualified car for the feature is unable to take the initial green, the first non-qualified car will be taken as the alternate starter for the feature event. Alternates receive show-up points only. However, Alternates earn the full amount of purse money that their respective finishing position is scheduled to pay. The original qualified car will not receive points for the feature race. If a qualified car takes the initial green flag and then falls out of the race, there will not be an alternate starter added to the race and the original qualified car will receive last place Feature points.

World of Outlaw Craftsman Late Model Series

- A. If for any reason, a driver and car match-up in any race is separated then only the driver is considered qualified.
- B. If a car/team switches driver(s), for any reason, that car must start at the rear of the next scheduled race in which that car/team has qualified for.
- C. Qualifying will be split into two or more separate qualifying groups. The pill draw will determine which group a car/driver is assigned to qualify within. Qualifying will consist of two consecutive timed laps unless otherwise noted. Changes to the two-lap qualifying procedure will be at the discretion of the World of Outlaws Craftsman Late Model Series Officials. Any type of 'wave-off' is not permitted.
- D. Once the car enters the racing surface that is their qualifying attempt. If the car does not post a time or fails to complete a lap and posts 'no time' they will start last in a heat race.
- E. Qualifying will take place in the order of the pill draw. Each car and/or team will have a two-car period or two-group period to be in line for his or her own qualifying opportunity. If that time period is missed the late car will take its time trial at the end of the scheduled lineup and receive only one qualifying lap, the best a late car can qualify is 50% + 1 of the overall number of qualifiers no matter what the qualifying time of record is posted.
- F. The cars and/or teams that are late must be in line before the last scheduled car begins its qualifying attempt. Time trials will be closed once all cars that are in line have started their qualifying attempt and have started their time trial.
- G. In the event of two or more cars posting the same time in time trials, the tiebreaker will be the qualifying order draw.
- H. All cars are considered in the starting field unless otherwise notified. In the event that a qualified car for the feature scratches from the field the first non-qualified car will be taken as the alternate starter for the feature event. The original qualified car will not receive points for the feature race. If a qualified car takes the initial green flag and then falls out of the race, there will not be an alternate starter added to the race and the original qualified car will receive only last place points for the feature.
- I. Once any driver has completed their qualifying attempt by taking the checkered flag, that driver must drive to the technical inspection area to scale the car for the minimum weight requirement. (From time-to-time, some events may require scaling the cars prior to qualifying).
- J. In the event of inclement weather, it is at the discretion of the World of Outlaws Craftsman Late Model Series Director and/or World Racing Group Supervisory Officials to change to one (1) lap qualifying.

- C. Qualifying will consist of a group format time trial session with consecutive timed laps unless otherwise noted. Changes to the qualifying procedure will be at the discretion of the Super DIRTcar Series and/or DIRTcar Officials. Any type of 'wave-off' is not permitted. Once the car enters the racing surface that is their qualifying attempt if the car does not post a time or fails to complete a lap and posts 'no time' they will start last in a heat race. Any driver attempting an extra qualifying lap during time trials will forfeit their best time and assume their worst time during their time trial attempt.
- D. Qualifying will take place in the order of the pill draw. In events that utilize group qualifying the pill draw will be utilized to establish each qualifying group. Each car and/or team must qualify with their specified group for their own qualifying opportunity. In the event of qualifying one car at a time if the driver misses his qualifying position by more than two spots the late car will take time at the end of the group and will receive only one qualifying lap. The best position a car that does not qualify in its specified group will be 17th. position.
- E. The cars and/or teams that are late must be in line before the last scheduled group begins its qualifying attempt. Time trials will be closed once the final group is in line and has started their qualifying attempt and have started their time trial.
- F. In the event of two or more cars post the same time in time trials, the tie breaker will be the fastest other lap time recorded in time trials. If this does not break the tie, the tie will be broken by the qualifying order draw. In the event that one (1) lap qualifying is utilized the tie breaker will be the qualifying order draw.
- G. In the event that a qualified car for the feature is unable to take the initial green, the first non-qualified car will be taken as the alternate starter for the feature event. The original qualified car will not receive points for the feature race. If a qualified car takes the initial green flag and then falls out of the race, there will not be an alternate starter added to the race and the original qualified car will receive only last place points for the feature.
- H. Once any driver has completed their qualifying attempt by taking the checkered flag, that driver must drive to the technical inspection area to scale the car for the minimum weight requirement. (From time-to-time, some events may require scaling the cars prior to qualifying).

- I. In the event of inclement weather, it is at the discretion of the Super DIRTcar Series and/or DIRTcar Series Director and/or World Racing Group Supervisory Officials to alter the qualifying process.
- J. In the event of inclement weather, following the conclusion of time trials each driver present receives show up points. Once the event has been run, these show up points will be changed to the points earned in the race. Any driver not able to return for the race keeps their show up points and alternates may be added to the race to fill the field.

- C. Qualifying may take place in a 'group qualifying format' and/or consist of one timed lap unless otherwise noted. Changes to the qualifying procedure will be at the discretion of the DIRTcar Officials.
- D. Qualifying may take place in the order of the pill draw. Each car and/or team will have a three-car period to be in line for their own qualifying opportunity. If that time period is missed the late car will be placed in the last position in a qualifying race.
- E. In the event of two or more cars posting the same time in time trials, the tie breaker will be the order of the qualifying draw.
- F. In the event that a qualified car for the feature is unable to take the initial green, the first non-qualified car will be taken as the alternate starter for the feature event. Alternates earn the full amount of purse money that their respective finishing position is scheduled to pay. The original qualified car will not receive points or money for the feature race. If a qualified car takes the initial green flag and then falls out of the race, there will not be an alternate starter added to the race and the original qualified car will receive only last place points for the feature.

Once the allotted time (announced at the driver's meeting) allowed for being on the track or in the lineup area, ready to race, has expired, any late car will be penalized and must start at the rear of the field. This rule may be adjusted from time-to-time, "EIRI", at the discretion of the DIRTcar Race Director.
- E. All double-file initial starts/restarts will take place at a consistent speed, with cars side-by-side in rows of two throughout the field. 5.14 – Restarts

World of Outlaw Craftsman Sprint Car Series

- A. Double-File Restarts: Under yellow-flag conditions the field initially goes to a single-file grid. Once the running order has been established and the field is set the race leader will choose either the inside or outside lane. The field will then be signaled to realign double-file. All cars positioned to line up behind the leader will go to the lane the leader has chosen and those positioned to line up behind the 2nd place car will go to the 2nd place car's lane. The grid must remain double-file and nose-to-tail until the race is started in the designated start area. The race leader sets the pace and is the control car. The race leader restarts the race. Once the leader starts the race it is started for the entire field. Passing and maneuvering throughout the field is allowed as soon as the race has started.
- B. All restarts will take place with the lead lap cars moved to the front of the field. Lapped cars will pull to the inside and fall in behind the last car on the lead lap in their order of running.
- C. Most restarts will be Double-File. However, if a crash occurs during a Double File Restart then the ensuing restart shall be a Single-File Restart. Subsequent restarts revert back to Double-File. World of Outlaw Sprint Car Series and/or World Racing Group Officials reserve the right to change and/or alter this rule, provided the competitors are given notice (in advance and/or over the one-way radio) due to any circumstance that require such a change and/or alteration.
- D. Single-File Restarts: A restart cone will be placed on the front straightaway. Cars will assemble in a single file running order.
- E. All cars must pass to the right of the restart cone(s) in a single file, nose-to-tail manner.
- F. If a car passes to the left of the restart cone, hits the cone, passes another car before reaching the cone, is not in a proper nose-to-tail alignment and/or is guilty of an excessive gap between cars, then that car will be penalized two positions. Any car in the last 2 running positions of the restart that commits an offense will be allowed to restart but will be penalized 2 finishing positions. If there are multiple violations, the car may be disqualified from the event.
- G. If the leader is unable to properly restart the race after the one (1) attempt, the leader will be penalized two (2) positions.
- H. When an infraction occurs on a restart, WoO Officials may exercise their discretion and allow the race to continue, not calling for another restart, and then penalize the offending car(s) under yellow flag conditions or at the conclusion of the race. The offending car(s) will be penalized 2 positions plus any positions gained.
- I. Restarts will follow single-file procedures (i.e.: cone on front stretch) following a caution period and/or red flag period during the final five (5) laps of any racing event over 20 laps and single file during the final two (2) laps of any racing event under 20-laps.

5.15 – Racing

World of Outlaw Craftsman Sprint Car Series

- A. Any car that does not race on the designated racing surface in order to better its position will be black flagged and penalized at the discretion of the World of Outlaws Craftsman Sprint Cars Series Officials.
- B. The maximum number of event laps will be stated by the World of Outlaws Craftsman Sprint Cars Series Race Director during the driver's meeting but may change due to extenuating circumstances.
- C. Cars and/or teams will not be permitted to be 'pushed-off' during any green flag conditions. An offending car will be automatically disqualified.
- D. Any car that spins, is involved in an incident and/or has a problem but does not bring out the yellow flag and/or create a caution period, will blend back into the field where the driver is able to do so. If there is a caution period, the World of Outlaws Craftsman Sprint Cars Series Officials will determine the placement of the car(s) involved. The placement of the car will be where the car blended back into the field.
- E. At the discretion of the World of Outlaws Craftsman Sprint Cars Series Official any car that is involved in two (2) single car spins that are unaided may be disqualified from the event. If the car spins unaided for third time it will result in automatic disqualification from the event.
- F. At the discretion of the World of Outlaws Craftsman Sprint Cars Series Official any car that intentionally brings out a caution period will be disqualified from the event.

- G. All races must be completed in a “green-white-checker” finish. This means if the yellow flag is displayed or caution lights illuminated prior to the leader receiving the checkered flag, that race will be restarted and run for two consecutive laps before completion. Under certain conditions, at the discretion of WoO Race Officials, a one lap “white – checkered” finish is allowable.
- H. If a race is red flagged due to weather conditions and cars are sent to the pits, then any and all work, including tire changes, is permitted.
- I. Any cars that require a push start during a yellow caution period, will be considered involved in the incident which brought out the yellow flag and that car will have to restart at the rear of the field.
- J. Any cars that stop, either on the racing surface and/or in the pit/designated work area, during a caution period will be required to restart from the rear of the field.
- K. Any car or cars that are involved in a yellow or red flag situation, including non-involved cars, that go to the work area are required to restart behind cars on the same lap that stay on the track. However, if the incident resulted in a closed red situation and the determination is made to go to an open red then all cars that were considered involved, whether they went to the work area or not, will re-align at the rear of the field in their scored position on their last completed lap. Order is lead lap cars, 1 lap down cars, and multiple lap down cars. Any car that merely spins-out or stops as the field is stopping for a red flag situation retains their running position provided no contact is made with another car, fence, wall or like obstacle that in itself would require a yellow or red flag. A spin or stoppage that requires a car to be re-started during a yellow flag slow down period is considered as being involved and will result in said car or cars re-aligning at the rear of the field along with other cars that were involved in the yellow stoppage.
- L. Any car that stops because of a blocked track, at the discretion of the World of Outlaws Craftsman Sprint Cars Series Officials, will not be considered involved in the red or yellow flag incident.

- N. Any car that requires a push-off at any time during an event must have a rear bumper in place.
- O. If it is determined in any race, after the original start, that any competitor deliberately initiates a caution period, by any means, that competitor will not be permitted to restart that race. The determination of what constitutes deliberately initiating a caution period will be at the judgment of the World of Outlaws Craftsman Sprint Cars Series and/or World Racing Group Officials.
- P. Adding fuel, whether on the track or in the work area, will not be permitted when yellow flag and/or closed red flag conditions exist. Violators are subject to disqualification and/or fine and/or suspension and/or any other action deemed appropriate by World of Outlaws Officials and/or World Racing Group Supervisory Officials.
- Q. In the event that a race car is inadvertently or purposely hit by a push truck, pace vehicle or purposely hit by another race car during push-off, or under yellow flag conditions or other non-racing activity and such incident is witnessed by a World of Outlaws Official, then repairs can be made to the contacted vehicle and that car will resume it’s running position. The maximum time period allotted for such repairs is six (6) minutes. If repairs cannot be completed within this time period, then the car will be scored as finishing last in that race. Alternate(s) starters will not be given a starting position in this situation. In the event the damaged car is not able to reenter the race, the car will be scored last on the lap in which that car has completed.
- R. Any Cars going to the work area and reentering the race together will be positioned in the order of their last scored lap at the rear of the field behind cars that are on the same lap as they are. If a restart green flag is displayed and followed by a yellow or red flag before a lap is scored, then any car(s) that remained in the work area can reenter the race but will be positioned behind any same lap car that took the aforementioned restart green flag. If a car remains in the work area it can re-enter during any ensuing race stoppage, lining up behind any cars that are on the same lap as said car that is re-entering.
- S. Officials may complete an event, at any completed lap count, at their discretion, if a condition or circumstances create a reasonable inability to continue. The race will be considered complete unless announced otherwise.
- T. If, when officials determine in their sole discretion that unforeseen circumstances prevent the completion of the advertised distance or make it impractical to continue or complete the Race within a reasonable time after it has been stopped, the Race will be considered officially completed as of the last lap completed by the leader prior to the Race halt. The finishing positions will be determined, as they would have held if the Race had been restarted.

- A. Two-way radios will be permitted at specified events for specified divisions, including events that have and/or include pit stops, whether required or mandatory.
- B. In any event that requires a pit stop and/or refueling, the use of two (2) dump/refueling cans at the same time will not be permitted. Only one (1) dump/refueling can, which may not exceed 12 US Gallons in capacity, will be permitted at one time.
- C. Car(s) may not be pushed past the flagman located at the end/exit of pit road.
- D. Once a race has taken the original green flag and laps have started counting, cars may be started by hand pushing in the pit area and/or on pit road only. Push trucks may be available and will be signaled by race control for a mechanical push start if required. In events that utilize a pit road for servicing the car with a pit crew, push trucks will not be permitted to push start and/or push cars off of pit road and back into competition, unless directed to do so by the Super DIRTcar Series and/or DIRTcar race director.
- E. Cars may only enter pit road for pit stops from the defined pit road entrance. Cars must travel on pit road in a counter-clockwise direction only.
- F. When multiple cars are pitting and enter pit road, they must enter in single file. Passing on pit road will not be permitted. Cars must stay as far to the rights as possible on pit lane before entering the required pit stall and must maintain 'pit road speed' as designated by the pace car on pace laps. Exceeding the pit road speed and/or passing on pit road may result in a penalty at the discretion of Super DIRTcar, DIRTcar and/or World Racing Group Officials. 'Pit road speed' will be in effect for entering and exiting the pit road.
- G. All pit stop service must be completed in the assigned pit stall.
- H. Only six (6) pit crew members will be permitted over the wall to service the vehicle at any time. The use of any additional crew members may result in a penalty. Five (5) pit crew members to service the car and one (1) to handle the catch can. All crew members going over the wall (limit five plus the catch can person), must be equipped with helmets. All fueling personnel (gasman and catch can person) must have a full-faced helmet, fire resistant gloves and fire-resistant fire suit and/or a uniform that has been treated with a fire-resistant substance. It is recommended that the gasman with dump can and catch can man have a fire-retardant apron in addition to the fire-retardant suit. This rule applies for both the Super DIRTcar Series and/or Mr. DIRTcar 358-Modified Championship where refueling is required during a pit stop.
- I. In a 200-lap event, there will be one (1) mandatory pit stop any time after the completion of lap 50. During caution periods after the conclusion of lap 50, the caution will remain out to give teams the opportunity to pit and for the field to 'cycle' through required pit stops (a minimum of three (3) laps of caution). Please refer to individual race notes for race specific rules.
- J. For a pit stop to be considered official, the car must come to a complete stop in its assigned pit stall.
- K. In events where pit stops may be required, pit road will remain closed until the pace vehicle has control of the field. If a car enters pit road prior to pit road being 'opened' the minimum penalty will be that car being placed to the tail end of the field and the maximum penalty will be the loss of one (1) lap. Cars that have been damaged and/or require repairs and/or assistance will be permitted on pit road before it is open, however, if they are able to return to the race, they must restart at the rear of the field.
- L. In an event that requires two-way radio communication, the one-way radio must be used 'in-line' with the two-way radio system.
- M. It is recommended that all teams have a sign posted approximately ten (10') feet in the air in front of their assigned pit areas displaying their car number and color scheme. The sign should be legible for officials to facilitate the delivery of messages from race control.
- N. In the event of inclement weather and/or unforeseen circumstances that prevent the completion of the advertised distance of the event, the race will be considered official after half of the event has been completed. The car leading at the time of the red flag and/or signal of the event completion, will be considered the winner regardless of whether the car has made the mandatory pit stop before that time.
- O. During post-race inspection at specified events, only the driver, two (2) crew members and the car owner will be permitted in the designated post-race inspection area.

Section 6.0 – Scoring Procedures

Note: DIRTcar member track rules, procedure or common practice may deviate from the following posted procedures. The local track rules will apply in areas of conflict and should be confirmed by all participants.

- A. All races are scored at the designated start/finish line.
- B. After the first completed green flag lap, following the original start or a restart, when the caution is displayed all cars that were scored under green flag conditions will hold that scored position with all other cars lining up according to their last completed green flag scored lap. This partial lap will count toward the event's total number of laps. Racing back to the start/finish line will not be permitted.
- C. A lap will not be scored on the original start and/or any restart unless all cars complete the lap by passing through the start/finish line except for the cars involved in the incident.
- D. In the event that caution, and/or red flag is displayed with the checkered flag simultaneously that race is completed. The cars not crossing the finish line will be scored according to their position in their last completed green flag lap.
- E. In the event of unforeseen circumstances, the specified laps of any race may change from the original posted number of laps.
- F. All cars are required to be equipped with a transponder securely mounted on the specified location. It is the competitor's responsibility to ensure proper installation and working condition of the transponder.
- G. If a car is found to have a non-functioning transponder they will be directed to the pits to have one installed. A penalty may be assessed at the discretion of series officials.
- H. Officials may complete an event, at any completed lap count, at their discretion, if a condition or circumstances create a reasonable inability to continue. The race will be considered complete unless announced otherwise.

Section 7.0 – Payoff and Pit Procedures

- A. All paid purses, appearance money and/or other awards and/or funds as outlined in the promoter's contract shall be paid to the car owner and/or designated owner's representative.

Section 8.0 – Provisional & Alternate Starting Positions

World of Outlaw Craftsman Sprint Car Series

- A. If provisionals are permitted in the Feature event; the car(s) owner(s) and driver(s) will earn full WoO points.
- B. All 2018 WoO Platinum Member race teams that raced the entire 2017 season either as an Owner or Driver will begin the 2018 season with 2 provisionals. 2018 Gold Members that are in good standing will earn 2 provisionals after the 5th race night of the 2018 season and will also transition to Platinum status at that time. On July 1, 2018, any Platinum Team having raced 100% of the schedule to date will earn an additional 2 provisionals. The total provisionals any team can accumulate for the 2018 season is four (4). Any Owner or Driver that has already exhausted their allotted provisionals but gain additional provisionals by switching teams and/or by any other legal means will earn show-up points only for any further provisional starts.
- C. Any Team using a provisional shall forfeit the minimum start money paid for the A Main Feature. Any position attained that pays greater than the start money will be paid as advertised minus the start money amount.
- D. All Teams wanting to take a provisional must have attempted to compete in at least one preliminary event leading up to the Feature.
- E. Provisionals tag the rear of the A Main Feature.
- F. Unlimited WoO provisionals will be permitted for each Event's Feature race.
- G. The following guidelines will be used for determining provisional order:
 - a. For the first 5 race nights of the 2018 season provisionals will be awarded and lined-up according to last year's final Owner and Driver Point standings. (For the first 5 nights of racing only 2017 Platinum Members that raced full time as an Owner or Driver from the previous year are eligible for provisionals)
 - b. Beginning on the 6th night of racing, current Owner Points will determine the provisional order.
 - c. When using 2017 Owner and Driver Points for the first 5 nights of racing, the provisional order will be established by combining the two-point lists into one, numerically sequenced, list. If a team is comprised of a 2017 Owner and a different 2017 Driver, then that team uses whichever has the highest point position. Owner Points will take precedent if a tie exists between any Owner and Driver. Other ties will be broken first by 2017 A Main Feature wins, then top 5 finishes, then top 10 finishes and finally by qualifying position. Multi-car teams cannot rotate drivers to enhance their provisional position.
- H. Tracks, where a weekly sprint car program is raced and pointed, may install a program identically paid and pointed as the WoO provisional program, for up to 2 local drivers.
- I. In the event that a car qualified for the Feature event is unable to take the initial green flag, the first non-qualified car will be taken as an Alternate. The original qualified car will not receive A Main Feature points. Alternates earn show-up points only. However, Alternates earn the full amount of purse money that their respective finishing position is scheduled to pay. Alternates will not be taken once the initial green flag has been displayed.

World of Outlaw Craftsman Late Model Series

- A. If provisionals are permitted in the Feature event; the car(s) will earn full WoO points.
- B. Provisional positions awarded in the first three races of the 2018 World of Outlaws Craftsman Late Model Season will be

based off the 2017 final championship point standings. The 4th, 5th and the 6th race of the 2018 season will have one (1) provisional from the current 2018 World of Outlaws Craftsman Late Model Series championship standings and one (1) provisional from the 2017 World of Outlaws Craftsman Late Model Series championship standings. Beginning with the 7th race of the 2018 season, the provisional positions awarded will be based on the current 2018 World of Outlaws Craftsman Late Model Series championship standings.

- C. The Platinum/Gold Member car owner and driver who are the highest placed in the World of Outlaws Craftsman Late Model Series Championship standings upon entering the event and not qualifying for the feature event through normal qualifying procedures, including time trials, the qualifying races and any other qualifying races including 'B', 'C', 'D', etc....-mains, will receive the two-available provisional starting positions. If there is a tie in the World of Outlaws Craftsman Late Model Series Championship standings upon entering the event, then the tie will be broken by the results of time trials, with the car posting the faster lap time being awarded the provisional. Car owners and drivers must have perfect attendance to be eligible for a provisional. If all full-time car owners are qualified for the event, then the owner provisional will be awarded to the highest full-time driver in the World of Outlaws Craftsman Late Model Series Championship standings that has failed to qualify for the event.
- D. All Teams wanting to take a provisional must have attempted to compete in at least one preliminary event leading up to the Feature.
- E. Any provisional starters will fall in line at the rear of the Feature.
- F. Only two World of Outlaws Craftsman Late Model Series Championship Point Standing provisional positions will be permitted for each Event's Feature. A maximum of six emergency provisional starters will be permitted for each Event's Feature. Emergency provisional positions will be determined for the first three races by the 2017 Driver Championship point standings. The 4th, 5th and the 6th race of the 2018 season will use the current 2018 Driver Championship point standings.
- G. In the event that an eligible participant does not use provisional positions by point standings, the remaining available positions open for the feature will be awarded to the highest finisher in the Last Chance Showdown that does not transfer. If there are multiple "LCS" races time trials will be the tie breaker.
- H. The promoter may install a program identically paid and pointed as the World of Outlaws Craftsman Late Model Series provisional starting positions for up to 2 drivers.
- I. In the event that a car qualified for the Feature is unable to present itself no later than the final pace lap prior to the initial green flag, the first non-qualified car will be taken as the alternate for the Feature event. The original qualified car will not receive points for the Feature race. If a qualified car takes the initial green flag and then falls out of the race, no alternate will be taken, and that car will receive only last place points for the Feature.
- J. Any driver that requires a provisional to qualify for the feature at three consecutive events may be required to qualify for a feature through qualifying races before being awarded a fourth provisional. The fourth provisional may be awarded if the driver has a faster qualifying time than all other drivers who have attempted to qualify for all 2018 events that have failed to qualify for the feature event. If a car that has attempted to qualify for all 2018 WoO events and has not qualified for the event and has a faster qualifying time, then that driver will be awarded the provisional.
- K. Provisional starting positions may not be awarded at the discretion of the Series Director for the following, but not limited to; if a car is deemed not be able to run a competitive speed; if a car is late to present itself for the feature event.

"Preferred Provisional Starts" are limited to four (4) starting positions per season. Any non-platinum member(s) in the top-12 in series maybe considered a "non-paid" provisional. Only two (2) "non-paid" provisional starters may start a race unless otherwise altered by the Super DIRTcar Series Officials. "Non-Paid" Provisional starters will forfeit last place prize money to start the feature race. The maximum number of provisionals that any one driver may use in a single season is four (4). In all other series the Provisional starters will be considered drivers in the Top 12 in series points.
- C. Any provisional starters will fall in line at the rear of the Feature.
- D. A minimum of four (4) Super DIRTcar Series Championship Point Standing 'paid' provisional positions will be permitted for each Event's Feature.
- E. In the event that provisional positions are not used by any driver attempting to qualify for the feature event and there are no more transfer positions available to have enough positions to fill the number of starting positions for the number of posted starting positions for the race, the remaining available positions open for the feature will be awarded to the next fastest qualifier(s) from time trials, who have attempted to qualify for the feature.
- F. At tracks where a weekly DIRTcar Northeast program is raced and pointed, the promoter may install a promoter's optional starter identically paid and pointed as the Super DIRTcar Series provisional starting positions.

- F. The smell of alcohol or other prohibited substance is evident on the person of any Participant on the day of any WRG event.
- G. The results of an examination or test administered by, or at the request of WRG, indicates evidence that the Participant is or was using a prohibited or illegal substance, or the Participant is abusing alcohol;
- H. The Participant attempts to alter or manipulate a specimen used in connection with testing under this Policy, or the Participant attempts to alter or manipulate the results of any such testing or examination.

IV. RANDOM TESTING.

Participants understand and acknowledge that WRG reserves the right and ability to implement (in its sole discretion) a random and/or annual testing procedure and require Participants to submit to such testing. The selection of Participants to submit to random or annual testing shall be made by either the WRG or Administrator.

V. AUTHORIZATION FOR TESTING; WAIVER AND RELEASE; COMPLIANCE.

If a WRG Participant refuses to sign, execute, and/or deliver an authorization for testing in connection with this Policy, and/or the "WRG Substance Abuse Policy Waiver and Release, Express Assumption of the Risk,

and Indemnity Agreement” prior to participation in WRG events as required by WRG, the Participant will not be issued membership in, or a license to, WRG, and the Participant will not be permitted to participate in WRG events. In such a circumstance, if a Participant is already a member, and/or already has a WRG license, the Participant will be suspended until he or she complies with all requirements of this Policy.

Upon request pursuant to this Policy, Participants must comply and submit to testing within the time period designated by the WRG or Administrator officials. If a Participant refuses to comply with or participate in testing within the time period designated by the WRG or Administrator officials, the Participant may be removed from WRG event premises and suspended from competition. In such a circumstance, the Participant will also be subject to additional disciplinary action pursuant to this Policy.

VI. COLLECTION PROCEDURES AND TESTING PROTOCOLS.

A. Participant Notification Procedures.

WRG shall designate and assign certain WRG officials (hereinafter “Site Coordinator”) with the responsibility to carry out the following notification procedures with due care and diligence:

- 1) Designated Site Coordinator will be given a list of selected Participants by assigned Drug Testing Personnel (hereinafter “Collectors”) or WRG Officials.
- 2) Each selected Participant shall be notified in person of their selection to provide a urine sample by the Site Coordinator.
- 3) Each selected Participant shall be escorted directly to the testing area by the Site Coordinator or another assigned WRG official unless that Participant has a valid reason for a delay in reporting. Valid reasons for a delay in reporting may include, but are not limited to; pre or post competition obligations, media, medical requirements, and award ceremonies.
- 4) If the selected Participant is allowed a delay in reporting to the testing area, s/he shall be monitored by the Site Coordinator or another assigned WRG official until the selected Participant is able to report to the testing area.
- 5) The Site Coordinator shall inform the selected Participant to bring a valid form of photo identification to the testing area and to avoid over-hydrating in order to ensure a valid urine sample provision.

B. Collection of Urine Specimens.

The Administrator shall designate and assign Collectors with the responsibility to collect urine specimens and to carry out the following procedures with due care and diligence. Collectors should immediately inform a WRG or Administrator official if a Participant does not comply with any of these procedures.

- 1) Only those authorized by the Collector will be allowed in the testing area.
- 2) The Collector shall not be responsible for providing food or fluid to Participants.
- 3) Upon entering the testing area, the Participant will provide photo identification to the Collector. If the Participant does not have photo identification, the Site Coordinator or another WRG official will positively identify the Participant by signing their name in SCAN.
- 4) The Participant will select a unique set of beaker barcode numbers from a selection of such and that number will be recorded in SCAN by the Collector.
- 5) The Participant may not carry any item into the testing area when a specimen is being provided.
- 6) The Participant must remain in visual contact with the Collector until the specimen collection is complete.
- 7) When ready to urinate, the Participant will select a sealed beaker from a supply of such. The beaker will be kept in the Collector’s sight at all times.
- 8) A Collector who is the same gender of the Participant providing a sample, will accompany the Participant into the toilet area and will instruct the Participant to rinse their hands with water only (no soap).
- 9) The Collector, serving as the validator, will monitor the furnishing of the urine specimen by the Participant under direct visual observation until a specimen of at least 50mL is produced. The Collector must have a clear and unobstructed view of the passing of the specimen.
- 10) If the Participant is unable to provide a complete specimen and must leave the testing area for a reason approved by the Collector, the Participant must either: (i) remain with the Collector and during this time the Participant is responsible for keeping the beaker closed and controlled under the observation of the Collector; or (ii) the

incomplete specimen must be packaged in accordance with the Partial Specimen Protocol below. The Participant will be monitored by an assigned WRG official or Collector at all times until they return to provide a complete specimen at a time determined by the Collector.

- 11) The Collector who served as the validator and observed the furnishing of the urine specimen will attest by signature in SCAN that the specimen was provided under their direct observation.
- 12) In the presence of the Participant, the Collector will pour off a small amount of the specimen and measure the specimen's specific gravity ("SG"). If the specimen has a SG below 1.005, the specimen will be discarded in the toilet in the presence of the Participant and the Participant will be required to provide additional specimens under direct observation until a specimen of adequate SG requirements (≥ 1.005) is provided.
- 13) When a specimen with adequate volume and SG has been provided, the Participant will select a unique specimen number and sealed specimen collection kit from a supply of such. The Collector will ask the Participant to make sure that all numbered specimen seals match.
- 14) Under observation of the Participant, the Collector will open the sealed specimen collection kit and pour no less than 30mL of urine into the larger "A-Vial" and no less than 15mL of urine into the smaller "B-Vial". The Collector will then place the uniquely numbered seals on the vials and seal the vials for transportation to the laboratory back into the kit box that they were originally sealed.
- 15) The Collector and the Participant will attest by signature in SCAN that the collection procedures were followed.
- 16) The Collector may provide the Participant with a form that includes the date of the specimen collection, the Participant's name, and specimen number.
- 17) All specimens must be secured and controlled by the Collector at all times until handed off to FedEx. If reasonably feasible, the Collector should deliver specimens to a FedEx location as soon as possible following the completion of the collection. If circumstances do not allow for the shipment of the specimens on the same day as the collection, the Collector should store the specimens in a cool and secure location until delivery to FedEx.

C. Partial Urine Specimen Protocols

Participants who provide a partial urine specimen (*i.e.*, a urine specimen less than the required 50mL) and are required to leave the testing area for an approved reason by the Collector or Site Coordinator must be monitored by an assigned WRG official or Collector until they return to the testing area. The partial specimen will be packaged as outlined below.

- 1) The partial urine specimen must remain in the collection beaker.
- 2) The Participant will select a set of specimen seals provided from a supply of such.
- 3) The set of specimen seals includes five bar code seals (a seal for the A vial, a seal for the B vial, a shipping box seal, a seal for the Specimen Processing Form and a seal for the Participant's copy of the Specimen Processing Form) and one blank extra seal.
- 4) The Collector will place a Specimen Processing Form bar code on the white and pink copy of the Participant's Specimen Processing Form.
- 5) The Collector will have the Participant initial or sign the blank extra seal and place it on the beaker containing the partial urine specimen in such a way that the act of opening the beaker would cause the seal to be broken.
- 6) The Collector will place the sealed beaker in the larger compartment of a plastic shipping bag.
- 7) The Collector will seal the plastic bag in the same manner it is sealed for shipping of a complete specimen.
- 8) The Collector will have the Participant initial or sign a tamper evident seal placed on the bag in such a way that any subsequent seal breakage or tampering would be evident to the Participant.
- 9) The sealed, initialed specimen will remain with the Collector in the testing area.
- 10) After the Participant returns to the testing area, the Participant will show photo identification to the Collector, inspect the bag containing the beaker to ensure it is their

specimen and inspect the tamper evident seal on the beaker. If the Participant is satisfied that the bag and seal are unbroken and tamper-free, the Participant will then provide additional urine in the beaker according to the established protocol.

- 11) In the event that the Participant elects to provide a new specimen, the initial specimen will be discarded.
- 12) In the event that the Participant does not provide the required 50mL specimen and must leave the testing area again for an approved reason by the Collector or Site Coordinator, the Collector will begin with step 1 of this partial specimen protocol until the required 50mL specimen is obtained.
- 13) Once the required 50mL specimen is obtained, the Collector will package the specimen in the usual manner for shipping to the laboratory.
- 14) The Participant will sign their name indicating that all processing and packaging protocols were followed, including this partial specimen packaging protocol, and that the specimen is his/her urine with no evidence of tampering.

D. Testing Laboratory.

All testing pursuant to this Policy will be completed at a laboratory (or laboratories) selected by the WRG or Administrator, in their sole discretion, from the listing of those laboratories that have been certified by the Substance Abuse and Mental Health Services Administration of the United States Department of Health and Human Services and/or by the College of American Pathologists Forensic Urine Drug Testing Program (hereinafter the "Laboratory").

E. Testing Specifics.

The Laboratory shall determine the appropriate standards and methods of analysis regarding specimens submitted concerning WRG Participants. The Laboratory shall also determine if, and to what extent, a specimen is deemed to be a true positive for a prohibited substance and/or alcohol, along with whether or not the specimen has been altered or manipulated. The Laboratory shall transmit all testing results to an Administrator official (or officials) designated by WRG for interpretation, and for determination of the appropriate course of action.

VII. DISCIPLINE.

A. Positive Tests.

Any tests conducted under the Policy will be considered "positive" under the following circumstances:

- 1) If any prohibited substance is detected in the specimen provided by the Participant.
- 2) A Participant fails or refuses to take a test pursuant to Section IV or otherwise engages in activity that prevents the collection of a specimen under the Policy.
- 3) A Participant attempts to substitute, dilute, mask or alter a specimen, attempts to impair the excretion of a prohibited substance in a specimen, or attempts to tamper with a test in any way (including, but not limited to, catheterization, specimen substitution and/or adulteration).

B. Sanctions Concerning All Prohibited Substances.

- 1) Upon being notified by the designated Administrator official (or officials) of a true positive test result for a WRG Participant, the WRG Officials shall inform that Participant of the positive result and the following sanctions shall apply. **First Offense:** Participants will be withheld from competition for 90 days from the date of the test and fined \$1000. This suspension term may be reduced to 60 days with the completion of an alcohol or drug-education program. Reinstatement will be conditional on two negative tests over the final 14-day period of the suspension and payment of the fine (Note: a positive result on a re-test will count as a second offense).
- 2) **Second Offense:** Participants will be withheld from competition for 180 days from the date of the test and fined \$2500. This suspension term may be reduced to 120 days with the completion of an enhanced alcohol or drug-education program. Reinstatement will be conditional on two negative tests over the final 14-day period of the suspension and payment of the fine (Note: a positive result on a re-test will count as a third offense).
- 3) **Third Offense:** Participants will be withheld from competition for 365 days from the date of the test and fined \$5000. Reinstatement will be conditional on three negative tests over the final 30-day period of the suspension and payment of the fine

The determination of whether a test is "positive" under section VII.A.2 or VII.A.3 shall be made by the WRG in its sole determination. A Participant who violates Section VII.A.2 or VII.A.3 shall be considered to have tested positive for the category of prohibited substance in which he/she was attempting to avoid detection. If,

following a suspension (and the enforcement of any other disciplinary action), a Participant desires to resume participation in any way in a WRG event, the Participant must obtain approval from the WRG Appeals Board and/or WRG Supervisory Officials and must voluntarily submit himself or herself to follow up, and regularly scheduled, testing as deemed necessary by the WRG Supervisory Officials and/or Board. Such follow up testing shall be conducted in a manner, and under certain conditions, as determined necessary by the WRG Supervisory Officials and/or Board. The follow up testing as determined by the WRG Supervisory Officials and/or Board shall also be conducted solely at the expense of the Participant. In the event that a suspended Participant submits to follow up testing and such testing shows no evidence of a prohibited substance, the WRG Supervisory Officials and/or Board may reinstate the Participant, assuming the Participant is otherwise eligible to participate, and assuming that the Participant agrees to make himself or herself available for future random tests without the need for reasonable suspicion. Such random testing shall be conducted as the WRG Supervisory Officials and/or Board sees fit, shall take place at any time and at any WRG event, and shall be conducted at Participant's sole expense.

C. Appeals.

An appeal of a penalty imposed by any violation, as stated in the World Racing Group Substance Abuse Policy, are dictated by Section 12 of the General Rules and Specifications. Appeals will require a \$500 administrative fee. All other aspects of Section 12 will apply.

D. Therapeutic Use Exemptions.

Participants may have illnesses or conditions that require the use of a prohibited substance as treatment. In such a case, a Therapeutic Use Exemption (hereinafter "TUE") may, under strict conditions, provide a Participant with the authorization to take a needed medicine during competition. In no instance will an actively competing Participant be granted a TUE for a substance that would impair their ability to compete or endanger other Participants or spectators. If a TUE is approved that would impair a Participant's ability or endanger other Participants or spectators, that Participant will not be allowed to compete while undergoing such approved treatment. All TUE's will be reviewed by the WRG and in conjunction with a designated Medical Review Officer (hereinafter "MRO"). In order to obtain an approval for a TUE, a Participant must have a well-documented medical condition supported by reliable and relevant medical data.

E. Publication.

Participants agree that WRG may, as it deems reasonable under the circumstances, publish the results of any test or tests conducted pursuant to this Policy and the circumstances giving rise to such test to such third parties. Participants also agree that WRG may, in its discretion, publish information regarding disciplinary action taken as a result of any testing or any violation of the Policy. Participants shall have no claim or cause of action of any kind against WRG, the Administrator, or any of its officials, directors, officers, employees or agents with respect to any such publication.

VIII. PROHIBITED ACTED UNDER THIS POLICY.

If WRG determines that a Participant has engaged in any prohibited act under this Policy or has acted in a manner contrary to the purpose and intent of this Policy, WRG may remove the Participant from the WRG event premises and/or take any other emergency action as is deemed appropriate under the circumstances. In such a circumstance, the Participant will also be subject to disciplinary action as issued in the discretion of the WRG Supervisory Officials and/or WRG Appeals Board.

IX. TREATMENT FOR ALCOHOL, DRUGS, OR MEDICATIONS.

WRG shall not be involved in recommending or prescribing any particular rehabilitation programs or procedures in response to a violation of this Policy. However, WRG strongly encourages Participants in violation of the Policy to obtain professional and ongoing help and assistance. In determining potential reinstatement and future participation, WRG will take into account a Participant's efforts to obtain professional help, and it will consider the results and successful completion of programs and assistance.

X. WRG RULES.

This Policy, as it may be amended from time to time, serves as a supplement to the currently effective WRG Rules as promulgated by the WRG Supervisory Officials and/or WRG Board of Directors. This Policy shall be interpreted and applied by the WRG in the context of and in connection with the WRG Rules. This Policy is, and shall be, binding upon all WRG members in the same manner, and to the same extent, as the WRG Rule
